Printing and cutting the cards

Ten cards to an A4 sheet, at business-card size.

1. Change the clinic name, address and WhatsApp number on all ten cards at once with Find and Replace in Word (Ctrl+H).
2. Print page 1 on card stock (250 to 300 gsm), put the sheets back in the printer and print page 2 on the reverse. Every back is the same, so the flip direction does not matter.
3. Print at 100% (actual size), not "fit to page", so each card stays 85 × 55 mm.
4. Cut along the grey dashed lines with a paper trimmer or a cutter.
5. The front desk writes the name, date, time and doctor in pen before the patient leaves.

Why the last line on the back

A patient who knows that an early cancellation helps someone else will usually tell you rather than not turn up. Write the notice period your clinic actually works to.

In Medicolize the confirmation and reminders go by WhatsApp, and the patient confirms, cancels or reschedules in one tap: medicolize.com
