Loyalty programme

Al Noor Medical Centre · How you earn points, what they are worth and how to use them

1

Earn

1 point for every SAR 10 you pay for services, and a stamp for every completed session.

2

Collect

Your balance is kept in your name; ask the front desk for it at any time.

3

Redeem

Ask to use your points when you pay; they come off your invoice as a line.

Earning points

1 point for every SAR 10 paid for services, after any discount. Points are added when the invoice is issued.

What points are worth

Every 100 points are worth SAR 10 off a service.

Stamps

One stamp for each completed session. The tenth stamp is a session of the same service, on us.

Expiry

Points last 12 months from the day they are earned, and we remind you before they expire.

Exclusions

Products and medicines, amounts paid by your insurer, and services already on offer.

Redeeming

At payment, as a line on your next invoice, up to half of the invoice. Points cannot be exchanged for cash.

Who to ask

The front desk at any branch, or on WhatsApp: 0500000000.

General

The card and points are personal and cannot be transferred. We may change the programme with notice; changes do not touch points already earned.

The values on this page are examples: change them to suit your clinic before printing.

In Medicolize points are added when the invoice is issued and the balance sits on the patient file, so redeeming is a line on the next invoice:
